

Go – Tec is the latest brand-new company within Navim Group established after a business units transfer from former Seanet SA and Seanet USA.

Go – Tec operates in the design and manufacturing of marine equipment for cruise ships, ferries, naval ships, mega yachts, research vessels and offshore structures.

Its core business is the design, production, sale, maintenance and after-sales assistance of **WTD** (watertight compartment doors), **Splash doors, Cardecks, Rolling doors, Internal and External ramps, Hatches, Special Projects.**

PORTE SCORREVOLI DI COMPARTIMENTAZIONE

PORTE SCORREVOLI DI COMPARTIMENTAZIONE

Go – Tec mission is to offer functional and personalized efficient solutions fully compliant with safety standards at all times by integrating its systems into any kind of project/structure, whilst optimizing costs and fully respecting building plans.

Experience, expertise, leadership, innovation, team spirit and a passion for the sea are the strengths of Go – Tec that combines Italian history and professionalism to offer the best safety systems, passengers, cargo handling and custom marine solutions.

Go – Tec counts around **50 employees**, including experienced managers, skilled engineers, highly qualified workers and professionals who provide support through customer services set up.

The **former technical team in fully operative** supported by Navim Group design, production and installation teams working side by side in a new powerful and strong combination of **know-how, expertise** and **financial capabilities** which will allow Go – Tec to carry on any present and future project with full confidence of success.

A close-up, side-profile shot of a man with a beard and glasses, looking intently at a computer monitor. The monitor displays a complex technical diagram with various colored nodes and connecting lines. The background is a solid teal color.

**We reach new frontiers
through INNOVATION
and TECHNOLOGY**

Go – Tec plus is the consistent technology combined with the innovative design system powered by the **engineering department** with the engineers and technicians working constantly to improve efficiency.

It is where every process starts, where concepts and ideas are designed and shaped to become real products.

With all their expertise and a smart use of resources, our engineers focus on the target and translate each customers' need into **customers – driven products** everytime different and specifically conceived.

Turnkey Systems: from idea through design to post delivery service.

Go – Tec assists Shipowners, Shipyards and Customers with timely, innovative and cost effective solutions.

With their expertise, our experienced engineers focus their energy to develop a complete range of value-creating solutions, from feasibility studies and conceptual designs to complete “turnkey” systems as well as a range of customized services throughout the operational life of the ships.

It has been **Tecnimpianti Spa**, one of the oldest and most successful Navim Group companies and world leader in the naval-mechanical sector in the design and production of lifesaving appliances such as Davits and Winches, to lead the operation in order to expand its business, as part of an important development strategy based on technological growth.

Navim Group is an International Corporation headquartered in Italy and headed by its 3 main Business Units, **Navalimpianti Spa**, **Tecnimpianti Spa** and **Navalimpianti USA**, together with the driving strength of its strategic subsidiaries (12 fully-owned companies in 8 Countries and 3 participated companies).

In formalizing the operation the CEO of the Group,
Giuseppe Cracolici, expressed maximum satisfaction:

“Navim stands out for the high technological level of its system, for the intense and continuous research activity and for the passion in its work; the absorption of the watertight doors segment will allow us to expand and improve skills that already belong to us with a view to continuous growth and further strengthening not only in the Cruise segment, where we are already leaders, but also in the other segments. **Our worldwide after sales- service network is operative 24/7”**
